

Manage your assets with ease

Use iService to track, service, repair and replace your dental equipment

Minimise downtime, maximise productivity

Create an asset register

Ditch the spreadsheets, know what you have and where it is.

Service your assets

Schedule your servicing and store servicing history online.

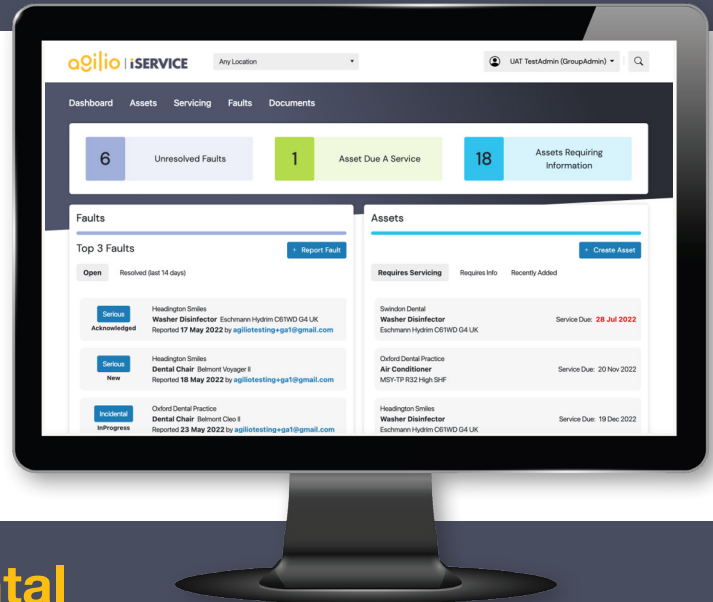

Timely repairs

Manage faults and track repairs. Reduce costly call outs with online user manuals for self-diagnosis.

Asset planning

Get a clear view of age, cost and lifecycle of assets to forecast future spend.

agilio | iSERVICE

The UK's first dental-specific asset management software

Has faulty equipment cost you time and money?

Do you struggle to manage all your assets across practices?

Do you lose track of faults and services?

Why you need iService

Save money

Reduce costly repairs and replacements as well as lost revenue from unplanned downtimes.

Save time

No more hunting for paper, everything is stored digitally in one place for quick and easy access.

Stay compliant

Breeze through CQC inspections and reduce potential health and safety risks with fully serviced assets.

Perfect for groups

Improved financial planning and imagine the bulk discounts and servicing efficiencies if you knew what you had across the estate.
