- Auto-assign compulsory documents and courses
- Personnel files storage and reminders
- Single sign-on

> "*My practice would be totally lost without Agilio Software. We use all their applications. We are only a small practice but the software helps us keep up to date with our compliance, manage our teams effectively and make sure our little team is all up to date with CPD. Their HR advice is a huge added bonus for me. I would thoroughly recommend Agilio... no matter how small or large your practice.*"
