

## Setting Up Wireless Loggers In TQS v6

- Install the Madgetech driver by running the 'PreInstaller.exe' application supplied (found in the 'USB' folder)

Name	Date modified	Type	Size
x64	24/07/2014 14:00	File folder	
x86	24/07/2014 14:00	File folder	
mtiUSBxp	31/08/2010 10:50	Setup Information	2 KB
<b>Preinstaller</b>	31/08/2010 10:50	Application	180 KB
setup	31/08/2010 10:50	Configuration sett...	1 KB
siusbxp	31/08/2010 10:50	Security Catalog	9 KB

- Open TQSoft and select 'Logger', then 'Select type of Logger/Recorder'

- From the dropdown box, select 'Battery Loggers (Madgetech, TMI, Gemini)', ensure 'Madgetech' is ticked, then 'OK'

The 'Start Logging' button will be replaced with a new icon. Please see 'Programming Wireless Dataloggers' for more information on performing a test.
